PROFILE

" I'm a Full-Stack Web Developer with over a year of hands-on experience building modern, responsive, and user-focused websites. While I'm skilled in both front-end and back-end development, my core expertise lies in crafting beautiful, high-performance front-end experiences using the latest web technologies. "

WORK EXPERIENCE

FRONT-END WEB DEVELOPER (Intern at Unimind Studios)
Duration :12/02/25 - 25/08/25

Developed multiple responsive websites using HTML, CSS, JavaScript, and React. Built modern, visually appealing UIs with a focus on user experience and performance. Integrated basic backend features using Node.js and Express to handle data and APIs. Collaborated on open-source and group projects to strengthen teamwork and problem-solving skills.

BACK-END DEVELOPMENT EXPERIENCE (Intern at Auraaz Tech)
Duration : 21/09/25 - Present

Developed and managed RESTful APIs using Node.js and Express.js. Designed and implemented MongoDB databases with efficient schema structures. Connected front-end interfaces with backend services for dynamic data handling. Focused on writing clean, optimized, and scalable backend logic.
